GAZETTEER OF MIGRATION PERIOD SETTLEMENTS AND POPULATION HISTORIES ACROSS BELARUS, UKRAINE, AND RUSSIA.

Supplementary Tabular Compilation of Settlement Population Histories (1000BC - 1000AD).

7 November 2026 - Aust Kätzchen | austkaeztchen@confoederatio.org

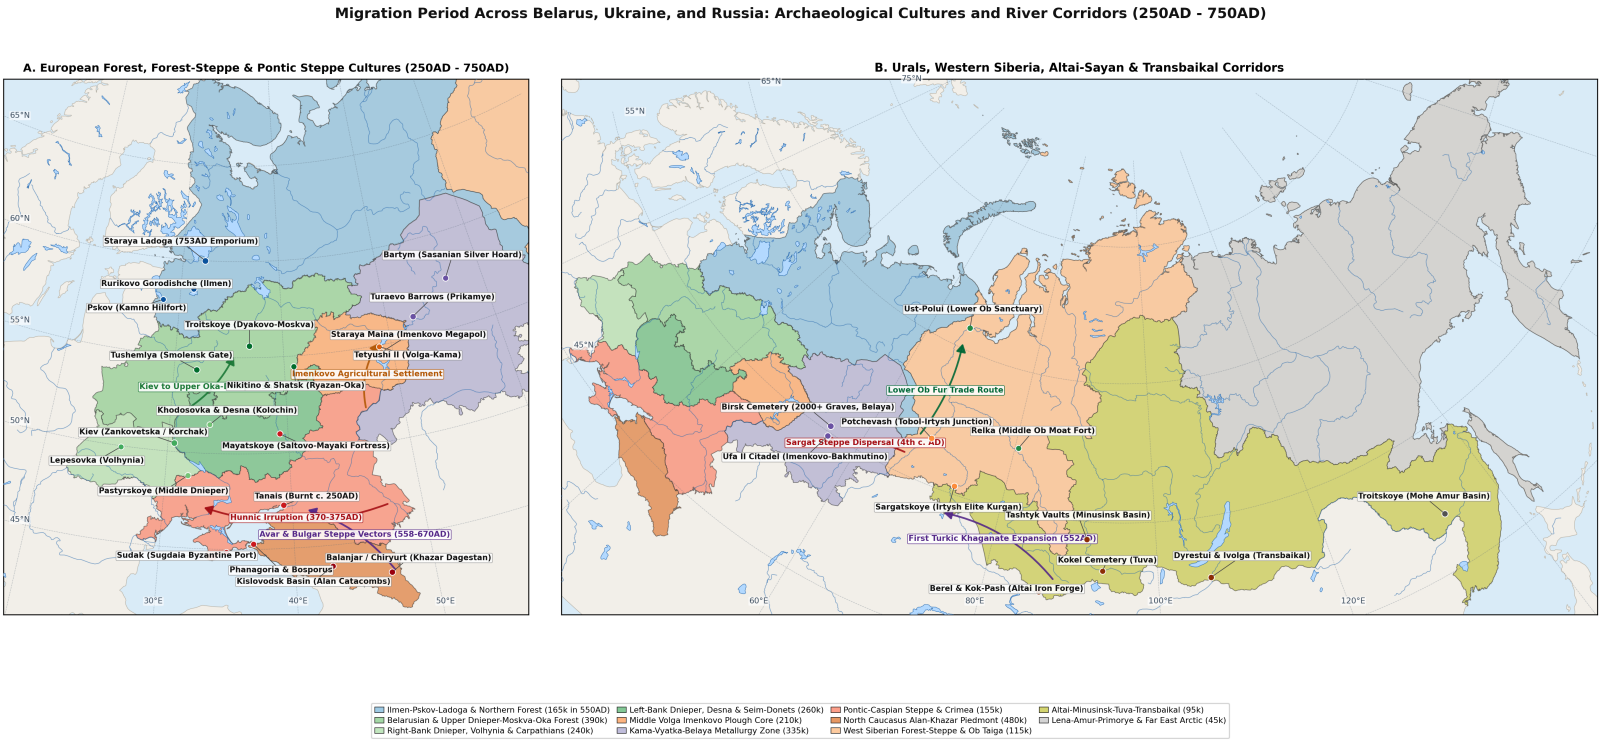

Figure 1. Migration Period archaeological cultures, river basins, population movements, and excavated settlements across Belarus, Ukraine, and Russia (250AD - 750AD).

Overview and Estimation Rules

This supplementary gazetteer compiles 198 excavated Migration Period (c. 250-750AD) and Early Medieval transitional settlements, promontory hillforts (*gorodishcha*), riverine villages (*selishcha*), and fortified towns across the six macro-regions of Belarus, Ukraine, and Russia (excluding the Baltic provinces). All records are stored in the companion settlement JSON file in the standard Stadester dictionary format, keyed by settlement and country identifier with English and Russian names, decimal coordinates, and positive integer population estimates keyed by calendar year.

For each settlement, population figures during the Migration Period (250-750AD) and the Early Medieval transition (900AD) are derived from excavated dwelling counts, fortified and unfortified habitation areas, and associated cemetery burial totals [1][2][3][4]. In the JSON file, only inhabited benchmark years are

recorded so that the first and last keys represent each site's documented occupation span; in the tables below, benchmarks prior to foundation or after abandonment are denoted by a hyphen (-). Where a Migration Period settlement evolved directly into a modern town or village on the same site, its population at the First All-Russian Census of 1897 (1900AD benchmark) is included [5].

European Forest-Steppe Settlements

Table 1 lists 38 excavated settlements across the Seim, Psel, Upper Don, Oskol, and Desna forest-steppe valleys, covering the Kiev, Eastern Chernyakhov, Kolochin, Penkovka, Volyntsevo-Romny, Borshevo, and Saltovo-Mayaki cultures [1][6][7][8].

Settlement	Historical / Native Names	Coords & Span	250	350	450	600	750	900	1900
