HILLFORTS, VILLAGES AND STEPPE FORTS OF THE MIGRATION PERIOD

Excavated Settlements across the East European Plain, the North Caucasus and Siberia

7 November 2026 - Aust Kätzchen | austkaeztchen@confoederatio.org

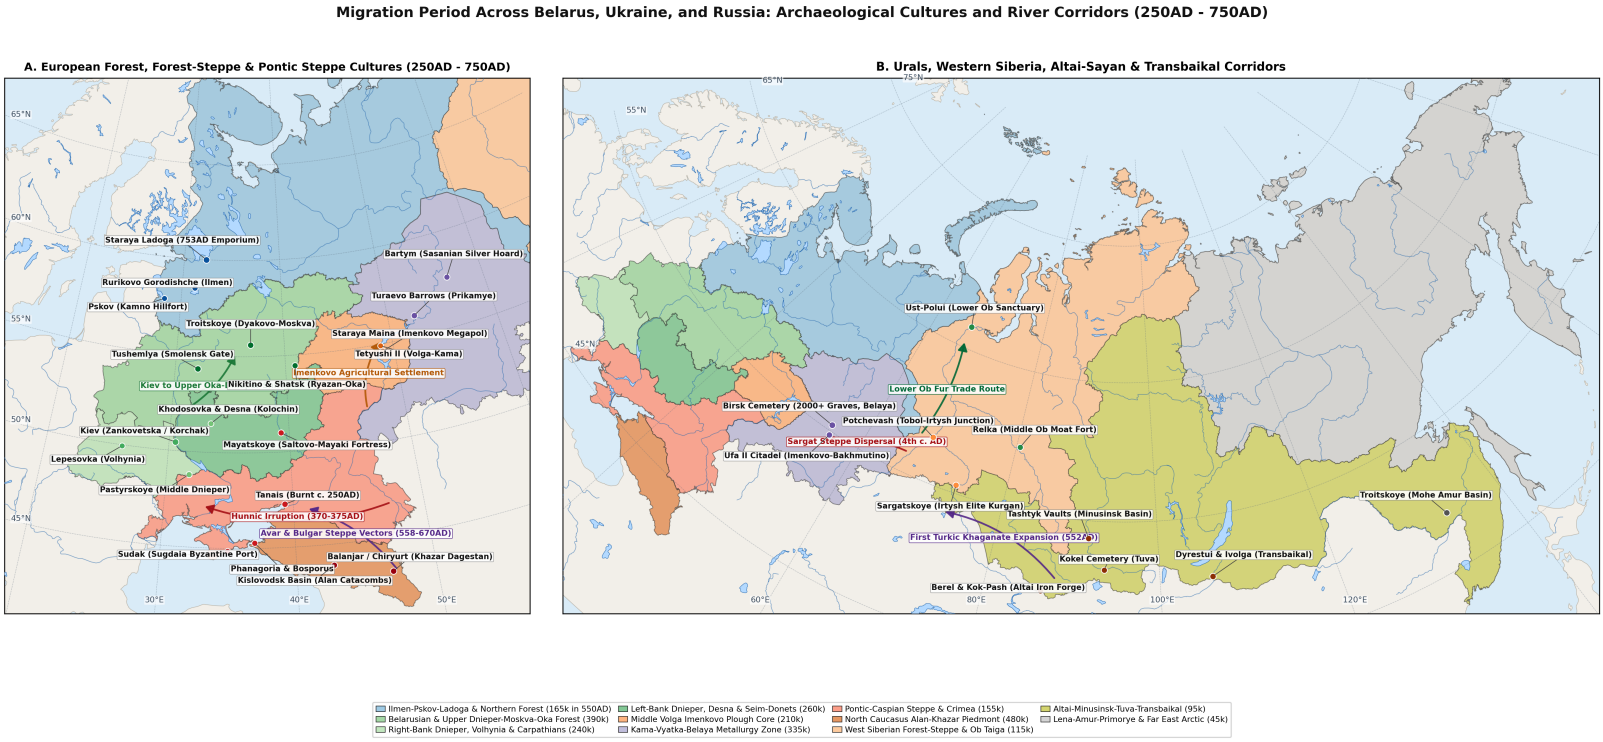

Figure 1. Six ecological zones and twenty archaeological cultures from the Dnieper-Desna forest-steppe to the Minusinsk and Baikal basins, showing the shift from open steppe pastures to fortified woodland and mountain valleys between 250AD and 750AD.

Abstract

This gazetteer compiles population estimates for 198 excavated settlements across Belarus, Ukraine and Russia (excluding the Baltic provinces) from the Late Roman period (250AD) to the First All-Russian Census of 1897 (1900AD). Arranged across six ecological zones - the European forest-steppe, the mixed and boreal forests, the Middle Volga and Kama-Urals, the open Pontic-Caspian steppe, the North Caucasus and Siberia - the tables trace how village life shifted when the Huns broke up the eastern Chernyakhov and Late Sarmatian settlements in the 370s AD. While open steppe camps and exposed southern border villages shrank or moved between 350AD and 450AD, fortified hillforts (*gorodishcha*), woodland river villages (*selishcha*) and terraced mountain strongholds grew steadily from the fifth to the tenth centuries AD, laying the urban foundations of early medieval Rus', Volga Bulgaria and the Caucasian frontier.

Methodology

This gazetteer brings together 198 excavated Migration Period (c. 250-750AD) and early medieval settlements - promontory hillforts (*gorodishcha*), river-terrace villages (*selishcha*) and steppe strongholds - across the six regions of Belarus, Ukraine and Russia (excluding the Baltic provinces). Together they trace the shift of population from the open Pontic-Caspian steppe into the woodland valleys of the Dnieper, Oka, Upper and Middle Volga, Kama and North Caucasus.

For each site, population estimates across the Migration Period (250, 350, 450, 600 and 750AD) and the early medieval transition (900AD) are worked out from excavated house counts, fortified and open settlement areas and cemetery grave totals [1][2][3][4]. Dates before a settlement was founded or after it was abandoned are marked with a hyphen (-). Where an ancient hillfort or village grew into a lasting town or village on the same spot, its population at the First All-Russian Census of 1897 (1900AD) is given in the final column [5].

Results

European Forest-Steppe Settlements

Table 1 lists 38 excavated settlements across the Seim, Psel, Upper Don, Oskol and Desna forest-steppe valleys, covering the Kiev, Eastern Chernyakhov, Kolochin, Penkovka, Volyntsevo-Romny, Borshevo and Saltovo-Mayaki cultures [1][6][7][8].

Radutino	Радутино; Радутин-ское поселение	52,42, 33,68 (250-750AD)	65	90	105	130	155	-	-

Table 1. Excavated settlements across the Dnieper, Desna, Seim and Upper Don forest-steppe from 250AD to 1900AD, showing the transition from large Chernyakhov plough-farming villages to Kolochin, Penkovka and early Slavic hillforts.

Mixed and Boreal Forest Zone Settlements

Table 2 lists 55 excavated hillforts, river villages and early towns across the Moskva, Upper and Middle Oka, Upper Volga, Ilmen-Volkhov, Pskov and Upper Dnieper forest basins, spanning the Late Dyakovo, Moshchiny, Ryazan-Oka, Tushemlya, Pskov Long Barrows, Merya, Muroma and Early Rus' traditions [9][10][11][12][13].

Settlement	Historical / Native Names	Coords & Span	250	350	450	600	750	900	1900
Dyakovo	Дьяково городище; Коломен-ское	55,66, 37,67 (100-1900AD)	175	185	160	130	110	190	850

Mankhay I	Манхай I; Манхай-ское городище (Кудинская долина)	52,78, 104,85 (450-1000AD)	-	-	140	280	450	620	-
Kurumchin-skoye	Курумчин-ское городище	53,12, 105,42 (450-1000AD)	-	-	120	260	420	580	-

Table 6. Excavated taiga hillforts, irrigated Minusinsk farming villages and Altai-Baikal iron-smelting settlements across Western and Southern Siberia from 250AD to 1900AD.

Appendix

Regional Gazetteer Summary

Table 7 sums the catalogued settlements and their combined population across the six regions from 250AD to 1900AD.

Region (Sites)	250AD	350AD	450AD	600AD	750AD	900AD	1900AD
1. European Forest-Steppe (38 sites)	1,4k	2,6k	2,2k	3,2k	7,1k	14,7k	113,8k
2. Mixed and Boreal Forest Zone (55 sites)	3,1k	4,6k	6k	7,5k	11,1k	28,6k	181,5k
3. Middle Volga, Kama-Vyatka and Cis-Urals (44 sites)	2,5k	5,3k	8,6k	12,3k	12k	18,3k	88k

4. Open Pontic-Caspian Steppe (16 sites)	4,8k	1,1k	1,4k	1,5k	9,9k	33,3k	21,2k
5. North Caucasus and Caspian Corridor (22 sites)	16,5k	20,1k	25,6k	43k	55,7k	66,1k	47,4k
6. Western and Southern Siberia (23 sites)	2,9k	3,5k	4,4k	6,1k	7,5k	8,5k	79,8k
All Six Regions (198 sites)	31,2k	37,2k	48,2k	73,7k	103,3k	169,5k	531,7k

Table 7. Combined population of the 198 excavated settlements across the six ecological zones from 250AD to the 1897 census.
